

UNION BANKSHARES CORPORATION  
A UNION OF COMMUNITY BANKS

Union Bankshares made a decision in 2005 to build a new Operations center that would house their business administration and finance teams. They secured KSA to complete the design and utilized McKinney and Company for their architectural and site work. Creative partnered with these great teams to contribute to the analysis, design, and implementation of the furnishings, flooring, modular walls, sound masking, and high density storage for the Operations Center. The Operations Center opened in the 3rd quarter of 2007.
